Fact Sheet for Accounting

<u>Degree obtained:</u> Bachelor of Science

School: Kania School of Management

Department Chair: Douglas M. Boyle

Phone number: 570-941-4047 Email: douglas.boyle@scranton.edu

Overview: In today's ever-expanding world of international commerce, it pays to be fluent in the language of business. Indeed, accounting is defined as "the language of business." Today's accounting professionals are in great demand, and new and exciting niches, including fraud examination/forensic accounting and accounting information systems, are developing within the profession. In short, there has never been a better – or more exciting – time to consider a career in accounting.

The Accounting Department at The University of Scranton strives for continuous improvement so that the program responds to the changing needs and demands of the global business world. Program options include a four-year accounting degree, a five-year combined Bachelor of Science/Master of Business Administration degree, a minor in accounting and a minor in accounting information systems. Within the four-year program and the combined BS/BA program, students may opt to complete either the General Accounting track, the Forensic Accounting track or the Accounting Information Systems track.
