PREAMBLE

The purpose of developing this tool was in response to academic and clinical educators’ requests to provide a voluntary, consistent and uniform approach for students to evaluate clinical education as well as the overall clinical experience. Questions included in this draft tool were derived from the many existing tools already in use by physical therapy programs for students to evaluate the quality of the clinical learning experience and clinical instructors (CIs), as well as academic preparation for the specific learning experience. The development of this tool was based on key assumptions for the purpose, need, and intent of this tool. These key assumptions are described in detail below. This tool consists of two sections that can be used together or separately: Section 1-Physical therapist student assessment of the clinical experience and Section 2-Physical therapist student assessment of clinical instruction. Central to the development of this tool was an assumption that students should actively engage in their learning experiences by providing candid feedback, both formative and summative, about the learning experience and with summative feedback offered at both midterm and final evaluations. One of the benefits of completing Section 2 at midterm is to provide the CI and the student with an opportunity to modify the learning experience by making midcourse corrections.

Key Assumptions
- The tool is intended to provide the student's assessment of the quality of the clinical learning experience and the quality of clinical instruction for the specific learning experience.
- The tool allows students to objectively comment on the quality and richness of the learning experience and to provide information that would be helpful to other students, adequacy of their preparation for the specific learning experience, and effectiveness of the clinical educator(s).
- The tool is formatted in Section 2 to allow student feedback to be provided to the CI(s) at both midterm and final evaluations. This will encourage students to share their learning needs and expectations during the clinical experience, thereby allowing for program modification on the part of the CI and the student.
- Sections 1 and 2 are to be returned to the academic program for review at the conclusion of the clinical experience. Section 1 may be made available to future students to acquaint them with the learning experiences at the clinical facility. Section 2 will remain confidential and the academic program will not share this information with other students.
- The tools meet the needs of the physical therapist (PT) and physical therapist assistant (PTA) academic and clinical communities and where appropriate, distinctions are made in the tools to reflect differences in PT scope of practice and PTA scope of work.
- The student evaluation tool should not serve as the sole entity for making judgments about the quality of the clinical learning experience. This tool should be considered as part of a systematic collection of data that might include reflective student journals, self-assessments provided by clinical education sites, Center Coordinators of Clinical Education (CCCEs), and CIs based on the Guidelines for Clinical Education, ongoing communications and site visits, student performance evaluations, student planning worksheets, Clinical Site Information Form (CSIF), program outcomes, and other sources of information.

Acknowledgement
We would like to acknowledge the collaborative effort between the Clinical Education Special Interest Group (SIG) of the Education Section and APTA’s Education Department in completing this project. We are especially indebted to those individuals from the Clinical Education SIG who willingly volunteered their time to develop and refine these tools. Comments and feedback provided by academic and clinical faculty, clinical educators, and students on several draft versions of this document were instrumental in developing, shaping, and refining the tools. Our gratitude goes out to all of those individuals and groups who willingly gave their time and expertise to work toward a common voluntary PT and PTA Student Evaluation Tool of the Clinical Experience and Clinical Instruction.

SECTION 1: PT STUDENT ASSESSMENT OF THE CLINICAL EXPERIENCE

Information found in Section 1 may be available to program faculty and students to familiarize them with the learning experiences at this clinical facility.

1. Name of Clinical Education Site __________________________________________
   Address________________________________________ City________________ State ______

2. Clinical Experience Number _______________ Clinical Experience Date (Year) __________

3. Specify the number of weeks for each applicable clinical experience/rotation.
   ___ Acute Care/Inpatient Hospital Facility ___ Private Practice
   ___ Ambulatory Care/Outpatient ___ Rehabilitation/Sub-acute Rehabilitation
   ___ ECF/Nursing Home/SNF ___ School/Preschool Program
   ___ Federal/State/County Health ___ Wellness/Prevention/fitness Program
   ___ Industrial/Occupational Health Facility ___ Other ____________

Orientation

4. Did you receive information from the clinical facility prior to your arrival?       ___ Yes ___ No

5. Did the on-site orientation provide you with an awareness of the information and resources that you would need for the experience? ___ Yes ___ No

6. What else could have been provided during the orientation?

Clinical Experience

11. Were there other students at this clinical facility during your clinical experience? (Check all that apply):

   _____ Physical therapist students
   _____ Physical therapist assistant students
   _____ Students from other disciplines or service departments (Please specify ____________)

12. Identify the ratio of students to CIs for your clinical experience:

   _____ 1 student to 1 CI
   _____ 1 student to greater than 1 CI
   _____ 1 CI to greater than 1 student; Describe __________________________________________

13. How did the clinical supervision ratio in Question #12 influence your learning experience? ____________________________________________________________

14. In addition to patient/client management, what other learning experiences did you participate in during this clinical experience? (Check all that apply)

   _____ Attended in-services/educational programs
   _____ Presented an in-service
   _____ Attended special clinics
   _____ Attended team meetings/conferences/grand rounds
   _____ Directed and supervised physical therapist assistants and other support personnel
   _____ Observed surgery
   _____ Participated in administrative and business practice management
   _____ Participated in collaborative treatment with other disciplines to provide patient/client care (please specify disciplines) _____
   _____ Participated in opportunities to provide consultation
   _____ Participated in service learning
   _____ Participated in wellness/health promotion/screening programs
   _____ Performed systematic data collection as part of an investigative study

Overall Summary Appraisal

16. Overall, how would you assess this clinical experience? (Check only one)

_____ Excellent clinical learning experience; would not hesitate to recommend this clinical education site to another student.

_____ Time well spent; would recommend this clinical education site to another student.

_____ Some good learning experiences; student program needs further development.

_____ Student clinical education program is not adequately developed at this time.

17. What specific qualities or skills do you believe a physical therapist student should have to function successfully at this clinical education site?

**SECTION 2: PT STUDENT ASSESSMENT OF CLINICAL INSTRUCTION**

Information found in this section is to be shared between the student and the clinical instructor(s) at midterm and final evaluations. Additional copies of Section 2 should be made when there are multiple CIs supervising the student. Information contained in Section 2 is confidential and will not be shared by the academic program with other students.

**Assessment of Clinical Instruction**

22. Using the scale (1 - 5) below, rate how clinical instruction was provided during this clinical experience at both midterm and final evaluations (shaded columns).

1=Strongly Disagree   2=Disagree   3=Neutral   4=Agree   5=Strongly Agree
