The University of Scranton is a broadly regional institution of more than 5,000 undergraduate and graduate students located in northeastern Pennsylvania near the Pocono Mountains. Recognized nationally for the quality of its education, Scranton is one of 28 Jesuit colleges and universities in the United States. It is committed to providing liberal arts education and strong professional and pre-professional programs in the context of Ignatian educational principles, especially the care and development of the whole person. Drawing on the strengths that have made it a recognized leader in the Northeast (ranked in the top 10 among the master's universities in the north by U.S. News & World Report), Scranton is committed to a culture of scholarship and excellence and is moving into the front ranks of America's comprehensive universities.

The University of Scranton is, by tradition and choice, a Catholic and Jesuit university. A full statement of our mission may be found at http://www.scranton.edu/mission. The University of Scranton is an EOE Employee/Educator. The University of Scranton is committed to providing a safe and nondiscriminatory employment and educational environment. The University does not discriminate on the basis of race, color, national origin, sex, disability, religion, age, veteran status, gender identity or expression, sexual orientation, or other status protected by law. Sexual harassment, including sexual violence, is a form of sex discrimination prohibited by Title IX of the Education Amendments of 1972. The University does not discriminate on the basis of sex in its educational, extracurricular, athletic, or other programs or in the context of employment. Veterans, minority persons, women, and persons with disabilities are encouraged to apply.

The University of Scranton invites applicants for the following faculty positions that begin in August, 2017 unless otherwise noted. Salary is commensurate with credentials and experience. A full description of the duties of full-time faculty can be found in the University's Faculty Handbook at http://www.scranton.edu/academics/provost/FAC/fac_handbook.shtml. Faculty receive a competitive benefits package, including support for academic development and research. Information about the departments and the University may be found at http://www.scranton.edu.

All applications must be completed online. For more complete position descriptions and specific information about the application procedure, please go to https://universityofscrantonjobs.com.

**The Department of Biology**

Assistant Professor positions (up to two)

Ecoology/Environmental Biology/Evolution. We are particularly interested in applicants with expertise in evolutionary ecology, behavioral ecology, population ecology, microbial ecology, or molecular ecology. Applicants should be able to contribute to the Biology Department's core courses as well as to the Environmental Science Program. Evidence in teaching and an active research program that involves mentoring undergraduates is expected. A Ph.D. is required by start date and postdoctoral experience is preferred. Review of applications will begin December 1, 2016, and will continue until the position is filled.

Biological Department and the interdisciplinary Neuroscience Program. We are especially interested in neuroscience applicants with specializations that include but are not limited to neurogenetics or neu- \-roendocrinology. Applicants will contribute to the Neuroscience Research Methods Course and to the Biology Department's core courses. A research program that involves mentorship of undergraduates is also expected. Ph.D. required by start date; postdoctoral experience preferred.

Physiology. We are interested in applicants with expertise in Comparative, Evolutionary, Environmental, or Neural Physiology. It is intended that the successful applicant will contribute to the general physiology and introductory lecture and laboratory courses for majors and non-majors. Master's degree or doctorate ABD is required; Ph.D. by start date is preferred.

**The Department of Communication**

Assistant Professor - TV Broadcasting. Applicants should have a strong background in the following: producing and directing for news and/or commercial use, control room management, video photog- raphy and nonlinear editing (we teach Adobe Creative Cloud software); teaching undergraduate students digital media and production, preferably including social and/or new media. An earned Ph.D., or equivalent terminal degree (e.g. MFA), or dissertation defended by December 2017, in mass communication or a relevant discipline is required. Preference will be given to applicants with extensive professional experience, which could include experience in digital and online media; live, multi-camera video shoots; new media; and/or video production hardware. The successful candidate will also demonstrate the ability to be an outstanding teacher of college-level courses in television production and related curricula at undergraduate levels.

**The Department of Theology and Religious Studies**

Assistant Professor - Old Testament. Candidates should have completed the Ph.D. (or be ABD, with completion of the doctorate by August, 2017), be committed to undergradu- ate teaching, and have both a capacity and interest in pursuing research in their field. Teaching responsibilities include undergraduate survey courses as well as upper level and graduate courses in Scripture. Ability and desire to teach in other areas of Catholic theology is preferred. Applicants should be conversant with, and supportive of, the Catholic tradition and eager to contribute to the University’s Catholic and Jesuit mission.

**Panuska School of Professional Studies**

**The Department of Exercise Science**

Assistant Professor in the Community Health Education Program. The successful candidate will teach introductory through advanced community health education courses. Applicants are expected to have a Ph.D., or Ed.D in community health education, health promotion or a related field. ABD applicants will be considered at the rank of instructor, with completion expected within 18 months of appointment. Credentialing as a Certified Health Education Specialist is also required within 1 year of employment. Leadership opportunities exist for qualified applicants with extensive professional experience in the field of health education/epidemiology/health promotion and curriculum development. Preferred qualifications include evidence of research productivity, previous undergraduate teaching at the university level, professional experience in the health education/promotion field, and curriculum development.

Assistant Professor in the Exercise Science Program. The successful candidate will teach courses within the EXSC program. Applicants are expected to have a Ph.D. in biomechanics, kinesiology, or a related field. ABD applicants will be considered at the rank of instructor, with completion expected within 18 months of appointment. Preferred qualifications include a background in sport biomechanics, possession of the CSCS certification through the National Strength and Conditioning Association, evidence of scholarly research productivity, and previous undergraduate teaching experience.

**The Department of Physical Therapy**

Assistant Professor and Associate Professor Positions – The successful candidates will be physical therapists with responsibilities including teaching, service, and scholarship with primary teaching opportunities available in the areas of kinesiology, anatomy, cardiovascular/pulmonary, pediatrics and orthopedics. Preferred qualifications include: 1) an earned doctorate (Ph.D, EdD) in a field relevant to physical therapy, 2) a minimum of 3 years of clinical experience, 3) a minimum of 3 years of teaching experience in an academic and/or clinical setting, and 4) a record of scholarly achievement. Applicants who are nearing completion of a terminal academic doctoral degree will also be considered. The candidate must be eligible for licensure in Pennsylvania with clinical expertise in an area of practice (e.g., kinesiology, cardiovascular, pediatric, orthopedics). Candidates with a background in basic science (e.g., anatomy, neuroscience, and biomechanics) will also be considered.

**The Department of Counseling and Human Services**

Assistant Professor - The successful candidate will be a counseling and/or human services educator. Besides teaching in the CSHP accredited undergraduate program, the successful candidate will also have the ability to teach core courses at the graduate level, including supervision of counselors in training. Individuals who possess experience teaching core undergraduate Counseling/Human Services courses and/or Rehabilitation Services courses are particularly encouraged to apply. Preferred qualifications include an earned doctorate in Counselor Education or a closely-related field (ABD with completion by August 2017 will be considered), graduate of a CACREP-accredited program, and possession of, or eligibility for, additional credentials (e.g., NCC, CRC, LPC, HS-BCP). Ideal applicants will also have experience as a peer review team member and have demonstrated leadership in human services endeavors. Opportunities exist for future department leadership positions.

**The Department of Health Administration and Human Resources**

Assistant Professor - The successful candidate will teach introductory through advanced Human Resource Management courses at the undergraduate and graduate levels. Additional courses may include relevant Health Administration courses. Leadership opportunities available for qualified applicants. Preferred qualifications include an earned doctorate in HR or a closely related field from an accredited university (ABDs may be considered at the rank of instructor with degree completion expected within 12 months of appointment). A minimum of 3-5 years of recent human resources management-level work experience and professional certification (e.g., PHR, SHPR, GPHR, CPLP, CCP) are preferred. Experience in teaching in multiple delivery formats is preferred.

**VISITING FACULTY POSITIONS**

**College of Arts and Sciences**

**The Department of Mathematics**

One-year Visiting Assistant Professor - The successful candidate should have or complete during the 2017-2018 academic year, a Ph.D. in mathematics. The candidate must also be enthusiastic about teaching and will be expected to teach a broad range of courses throughout the mathematics curriculum.
