1.0 Course Title and Brief Description

2.0 Course Objectives

These are to be specific, student outcome objectives. [The objectives must be presented in a way that makes them assessable]. They should be developed so that a reader can relate them clearly to the published general education objectives.

3.0 Brief List of Topics to be Addressed in the Course

4.0 Brief List of Assignments

List the assignments students must complete for the course, including such items as readings, written and oral work, projects, etc. Relate the assignments to the student outcomes given in section 2.0.

5.0 Evaluation

Describe the evaluation procedures that will be used to determine the extent to which student outcomes given in 2.0 have been achieved. Indicate ways in which results of the evaluation will be used not only to grade students but also will help to modify how the course is taught.

6.0 Prerequisites (if any)/ Rationale

7.0 Course Level (if other than 100)/ Rationale
