Biology  
Variation in transmission potential for Zika, dengue, chikungunya, and yellow fever virus in North American Aedes aegypti and Aedes albopictus mosquitoes

Professor Donna Witek  
Liberal Arts  
Information Literacy Teaching and Learning in the Ignatian Pedagogical Paradigm

**Center for Career Development**

- The Center is collaborating with Campus Ministries to identify faith-based organizations offering internships or employment opportunities. Staff will also be conducting information sessions for students on how to showcase service experiences on resumes.
- Since the beginning of the academic year, the Center reports the following activity:
  - 268 Internships posted (247)
  - 423 full-time positions posted (345)
  - 294 employers registered (236)
  - 747 student appointments (810)
  - 2762 students reached through program and classroom presentations (1655)

 **Note: #’s in parenthesis offer last year’s numbers for the same period**

- The Center conducted site visits to the following employers: Walmart Distribution Center, HBC/Lord & Taylor, JP Morgan, Rolling Stone, Weiden + Kennedy, and ZenithOptimedia.

**College Updates**

**Panuska College**

- The Graduate Nursing Program was awarded a federal traineeship grant from the U.S. Department of Health and Human Services, Bureau of Health Professions, for $348,500 for the 2016-2017 academic year. The grant funds will be used to support the educational preparation of graduate students in the University’s Family Nurse Practitioner Program. Through this grant the majority of students in this program will have about 90% of their tuition paid for this year.

**College of Arts and Sciences**

- Joshua David, a sophomore computer science major won the grand prize in the general computing category of the 2016 APL problem-solving competition. The APL competition requires contestants to use the APL programming language, along with problem solving skills, to answer a series of questions in computer code. In addition to the $2,000 cash prize, Mr. David presented his solution at the Dyalog APL User Meeting in Scotland.
- Tyler Milewski, a biochemistry graduate student received the highly-competitive Faculty for Undergraduate Neuroscience (FUN) Travel Award to present her research titled “Prenatal paracetamol exposure decreases anxiety-related behaviors and disrupt memory in mice” at the Society for Neuroscience annual meeting.
