Each block on the grid identifies the date and time of a final exam according to the semester block schedule. Identify the day and time of your final exam by finding the regular meeting time of your class in a block. Look at the column heading and row label of the block for the day and time of the exam. For example, *Block 9* indicates that the exam for classes that normally meet MWF 1:00 will be held on Wednesday, December 12th, at 12:45 pm.

- Some multi-section day courses, such as BIOL 110, combine their exams into one test time. Locate these courses in a block and read the grid the same as above.
- If a day lecture course meets one or two times a week, exam is held on date/time assigned for the corresponding MWF or TR classes.
- If a day lecture course meets four or five times a week, exam is held on date/time assigned for the corresponding MWF classes.
- For classes that normally meet at a time that is an exception to the standard block schedule: Find the meeting time with the next closest start time for that day of the week and follow the exam schedule for that meeting time.
- Except for multi-section exams, all classes meet for the exam in the same room assigned for the semester.
- Multi-section exams are for day sections of a course only. Rooms for these exams will be assigned by the Registrar, posted on the Registrar's web page (www.scranton.edu/registrar) and announced prior to the end of class by the professor.
- The exam for each evening course is held on a night that the class normally meets according to the above timetable. Exams for Monday classes with a start time of 4:30 p.m. or later will be held on Friday, December 14th at their regular meeting time.
