NOTE: Each cell on the grid identifies the date and time of a final exam according to the semester block schedule. Identify the day and time of your final exam by finding the regular meeting time of your class in a cell. Look at the column heading and row label of the cell for the day and time of the exam. For example, the cell at the intersection of column B, row 3 indicates that the exam for classes that normally meet **TR 1:00 will be held on Tuesday, May 15, at 12:45 pm.**

- Some multi-section day courses combine their exams into one test time (e.g., C/IL 102). Locate these courses in a cell and read the grid the same as above.
- If a day lecture course meets one or two times a week, the exam is held on the date and time assigned for the corresponding MWF or TR classes.
- If a day lecture course meets four or five times a week, the exam is held on the date and time assigned for the corresponding MWF classes.
- For classes that normally meet at a time that is an exception to the standard block schedule: Find the meeting time with the next closest start time for that day of the week and follow the exam schedule for that meeting time.
- Except for multi-section exams, all classes meet for the exam in the same room assigned for the semester.
- Multi-section exams are for day sections of a course only. Rooms for these exams will be assigned by the Registrar, posted on the Registrar's web page (www.scranton.edu/registrar), and announced prior to the end of class by the department offering the course.
- The exam for each evening course (start time 4:30 p.m. or later) is held on a night that the class normally meets according to the above timetable.
