More students have applied to The University of Scranton than ever before in the school's 114-year history. Applications for the university's full-time undergraduate programs for the fall of 2002 are currently at 5,062 and counting. This represents an increase of 47 percent over applications received by the same time last year.

The highest number of applications on record was 4,871 in 1989 for the full recruiting cycle. The complete count for the 2002 recruiting cycle will not be available until the fall. The application deadline for full-time undergraduate students was March 1. However, applications for adult, part-time, and graduate students are still being accepted.

"Value, communication, cooperation, and hard work are the reasons for the incredible increase in applications that the University has seen," said Joseph Roback, Director of Admissions.

According to Mr. Roback, part of the application increase stems from the University's Web site, www.scranton.edu. In the past year, 739 students have used the Web site to apply online—a 259 percent increase over previous years. E-mail inquiries about the University and its programs increased 43 percent over the previous year.

A newly designed admissions marketing campaign also contributed to its success. Redesigned publications follow a "Real World Ready" theme that appeals to young audiences and emphasizes outcomes.

The University of Scranton's "Real World Ready" newprint advertisement recently won a merit award from Admissions Marketing Report, a national newspaper for admissions personnel. For additional information contact the University's Admissions Office at 1-888-SCRANTON, or by e-mail at admissions@scranton.edu.

Plaque Dedicated in Memory of National Tragedy Victims

A plaque bearing the names of 36 members of the University family who were killed in the 11 September terrorist attacks was dedicated following a Eucharist of Remembrance at Madonna della Strada Chapel on 16 March. The Mass was attended by friends and families of the victims. The bronze plaque, at right, lists the names of five alumni and 31 relatives of students and alumni who were killed in the terrorist attacks on America.

Stephanie L. Tessing, a neuroscience and philosophy major at the University, was one of approximately 80 students in the nation who have been selected as 2002 Truman Scholars. The Scranton senior is the fourth University of Scranton student to be named a Truman Scholar since the awards were first made in 1977. Congress established the Truman Scholarship Foundation in 1975 as a memorial to the 33rd President of the United States. The Foundation awards merit-based scholarships to college students who wish to attend graduate school in preparation for careers in government or elsewhere in public service.

"The Truman Scholarship is widely regarded as one of the most competitive and prestigious scholarship programs in America," said Gretchen Van Dyke, Ph.D., Associate Professor of Political Science and the University's Faculty Representative for the Truman Scholarship. "Stephanie's remarkable leadership qualities, coupled with her deep commitment to public service, make her a Truman Scholar of exceptional standing." Ms. Tessing will receive $3,000 for her senior year at the University and $27,000 for three years of graduate study.

Ms. Tessing, a native of Monroe, Ga., plans to pursue a Doctor of Medicine and Master's in Public Health from Emory University, Atlanta, Ga. This dual M.D./M.P.H. program partners Emory's highly-rated School of Medicine with the Rollins School of Public Health. Upon completion of her graduate studies and residency, she plans to seek a position as a public health physician in a rural health setting.

"This is going to open so many doors for me," said Ms. Tessing. "I am going to be able to use this (Truman) to work with the people that no one else wants to work with. I want to be in the middle of it all."

Ms. Tessing is a Presidential Scholarship Recipient and a member of the Special Jesuit Liberal Arts Program at the University. She has been named to the Dean's List for every semester of her studies at the University. Earlier this year, she participated in a medical mission trip to Haiti.
Thanks for the Letters, “Santa”

Political correctness entered the vocabulary of Santa’s letters when University of Scranton Psychology Club members took on the role traditionally held by Elves—answering letters to Santa. “We used a form letter and were careful not to promise gifts,” said Associate Professor of Psychology Carole Slotterback, Ph.D. The letters were actually part of Dr. Slotterback’s four-year research project evaluating the impact of sociocultural change on “Letters to Santa” that she completed with Dr. H. Bailey college student Jeanne Brolan ’01. The study focused on the letters—not the response.

Although the study evaluated several factors over four years, including number and type of items requested, analyses revealed that letters written after 9/11 were much more likely to mention the wishes of siblings than in previous years and more likely to include patriotic sentiments. The study also noted that letters written this year were more likely to request adventure/fantasy toys. Nevertheless, the Psychology Club’s work responding to the 443 letters included in the study did not go unnoticed. Scranton’s gubernatorial candidate responded to the study by presenting the Psychology Club with a plaque of appreciation.

The University of Scranton is taking steps to plan a significant project identified in its Facilities Master Plan. A program statement is being developed for a proposed Campus Center, which will involve the expansion and renovation of the Gunster Student Center. The concept is one of a “crossroads on campus”–a place where students, faculty, administrators and staff can enjoy a variety of facilities. Equally important, the proposed Campus Center will be a meeting place—much like town centers or marketplaces found in cities.

“The goal is to encourage unplanned interactions between students, faculty, and staff,” said Vincent Carilli, Ph.D., Vice President for Student Affairs, and one of a group of University administrators heading up the early planning phase of this project. Preliminary plans call for the creation of a facility that will provide a single location for a variety of services and amenities, including dining services, the bookstore, mail services and meeting spaces. The planning stage began earlier this semester with a review of similar campus centers at other universities. Dr. Carilli, Associate Vice President for Administrative Services Martin Langan and Staff Architect David Wilson have been touring similar facilities throughout the country, and meeting with students, faculty, administrators and staff to learn from the experiences of others. In all, the group intends to visit 15 campus centers as part of the planning process.

The next step will be the formation of executive and standing committees representing a cross-section of the campus community. “We were especially interested in involving students who will help shape the project through its construction,” said Dr. Carilli.

Discussion Prepare Way for Proposed Campus Center

Aventis Pasteur Scholarship Recipients Named

Two graduate students are the recipients of the annual Aventis Pasteur Scholarship, which is sponsored by the global vaccine manufacturer at the University. In addition to the $6,000 scholarship each student receives, clinical chemistry majors Jong-Song Eun, Korea, and Xinxing Cai, China, will participate in a summer internship program at Aventis Pasteur, Inc., Swiftwater. From left: University President Joseph M. McShane, S.J., Rose Sebastianelli, Ph.D., Interim Dean of the Graduate School and Director of Research; Dr. J. Williams T.J., Aventis Pasteur President and Chief Operating Officer; M. Eun; M. Cai; and Paul J. Strunk, Vice President for Institutional Advancement.

Faculty Members to Receive Promotions, Tenure

The University of Scranton has announced 16 faculty promotions, including tenure decisions, which go into effect at the beginning of the 2002-2003 academic year. The announcements were made by University President Joseph M. McShane, S.J.

The following faculty will be promoted to professor effective the fall of 2002:

- Anna De Ritter, Ph.D., Clarks Summit, English; David M. Farrel, Ph.D., Clarks Summit, nursing; Daniel M. Atchley, Ph.D., Clarks Summit, accounting; and Oliver M. Organ, Ph.D., Clarks Summit, counseling and human services.

The following will be promoted to associate professor and granted tenure beginning the fall of 2002:

- Mary Jane A. D’Amato, Lack-Ard, nursing; Michael C. Lee, Dunmore, library; and Renee Hakim, Ph.D., Dallas, physical therapy.

The following will be promoted to assistant professor beginning the fall of 2002:

- Peter L. Frier, Ph.D., Clarks Summit, physical therapy; and Linda N. Heyer, Scranton, library.

The University currently employs 255 full-time faculty members, 83 percent of whom hold doctorate or terminal degrees.

Dean’s List Additions

Following are names of additional students who have been named to the Dean’s List for the Fall 2001 Semester.

Collge of Arts and Sciences

Fresmen: Jennifer A. Glenn, Zachary Jud, Joann Zielinski

Juniors: Daniel M. Iles, Michael T. Todd

Seniors: Jon R. Collins, John M. C的愿望, Stephen M. McKelley, Allison L. Ruzbarsky

Dexter Hanley College

Senior: Sean Southard

Kania School of Management

Senior: Tomas B. Keys

Panuska College of Professional Studies

Juniors: Adrian Hartley

Jennifer H. Uvar

William B. Hill, S.J.
1912 - 2002

A native of Pittsburgh, Fr. Hill attended Duquesne University. In 1933, at the end of his junior year at Duquesne, he entered the Society of Jesus at the Novitiate of Saint Isaac Jogues in Wernersville, Pennsylvania. He received a bachelor’s degree and a licentiate in philosophy from Woodstock College (Maryland), and a licentiate in theology from Weston College (Massachusetts). Ordained to the priesthood in 1945 by Bishop T.A. Eminet, S.J., he pronounced his final vows in the Society of Jesus on 2 February 1951. Immediately thereafter, he pursued doctoral studies in English at Fordham University in New York.
An accomplished poet, professor, and administrator, Fr. Hill’s career in higher education spanned 50-plus years. He was the Faculty member at the Novitiate of Saint Isaac Jogues, 1951 - 1953. He was Dean of the Faculty at the Novitiate of Saint Isaac Jogues, 1963 - 1966. He was Associate Professor of English at Loyola College and Seminary (a branch campus of Fordham University) in Shrub Oak, New York, 1966 - 1969. Professor of English at The University of Scranton, 1969 - 1973

Physical Therapy Research Benefits from Motion Analysis System

Animation and physical therapy have a lot more in common than you might have imagined, funny as it may seem. The computerized motion analysis system — used by animators to create life-like characters — was originally designed for use by human movement scientists seeking to determine normal and abnormal types of body movement.

One of the most advanced such systems — called CODA — is used by faculty and students conducting physical therapy research at The University of Scranton. It is one of only three such systems in the United States.

"The CODA system is widely in use in the United Kingdom and Europe," said Edmund Kosmati, E.D.O., Professor and Chair of the Physical Therapy Department at the University. "When we heard that two major research institutes — Rancho Los Amigos in California and Moss Rehabilitation Center in Philadelphia — had purchased the equipment, it confirmed the University's decision to buy the CODA system." In previous years, range of motion for activities such as walking, kicking or moving one's wrist, was measured through video equipment. With CODA, motion in three dimensional space is recorded within one millimeter of accuracy on a computer terminal, and specific movement can be analyzed via a computer-generated model.

Markers are attached to the patient's limb, for example, the leg. The markers are then plugged into a timing device, and the patient walks in front of a camera that detects infrared light emitted from each marker. A model of the patient's gait is generated on the computer screen.

One small step for the patient translates into a major step in the field of physical therapy research. "This is a huge step forward for our department," said Mary Beth Grant-Beuttler, Assistant Professor of Physical Therapy, and one of the faculty members most familiar with the system's operations. "With CODA, we have the tool we need to get students involved in high-end research."

To date, most of this research has been about gait analysis. By analyzing how a patient walks, students and faculty can evaluate normal ranges of motion and determine potential abnormalities of the gait. Ultimately, this can lead to the development of a physical therapy program to treat abnormalities.

This summer, Ms. Grant-Beuttler will be using the CODA system to evaluate kicking patterns of infants as part of a dissertation. She will be comparing kicking patterns of infants born at full-term with babies born prematurely.

"Eventually, we hope to use the equipment for consultative work with physicians in the community," said Ms. Grant-Beuttler. "This CODA is the true beginning of a real lab that can turn out quality research."
Scranton Student Helps Invent the Future of PA

When Pennsylvanians Governor wanted to take action to prevent the state's exodus of college graduates, he cut through the red tape and went directly to the source to initiate a plan: college students. Thirty college students were selected from throughout Pennsylvania to meet and brainstorm and suggest ways to help plug Pennsylvanians' brain drain.

Among this elite group was Les Carter, a Moscow native and double-major (mathematics and philosophy) at the University. Selected through a competitive application process during his sophomore year, he served as an intern for the PA Stay and Invent the Future Initiative, which seeks to match the state's university students with job opportunities in Pennsylvania businesses.

"The 30 of us proposed a Web site for college students to post their resumes and for businesses to post internship and job opportunities," said M. R. Carter. "We worked with a Web development firm to design the interactive site and thought that our job was done."

M. R. Carter was called in January of this year to serve again, only this time as part of a statewide team of 12 responsible for promoting the site to students and businesses. M. R. Carter is the northeast regional representative for the PA Stay Invent the Future State Intern Program. He is now in the process of contacting the 16 colleges, universities and technical schools in Lackawanna and Luzerne counties to make college students aware of the recently created Web site.

"The Web site is a Virtual Internship Job Fair for Pennsylvania college students and employers. The site is interactive, searchable and free to both students and businesses," said M. R. Carter.

"The interns are the driving force behind this initiative," said Bill Jahn, manager of the University Industry Links for Ben Franklin Technology Partners, Northeast Pennsylvania, who volunteered to host two interns. "The student interns were creative in developing the Web site and are charged again to be creative in getting the word out."

"The Web site is one of two that the original group of 30 returning to the project. The Stay and Invent the Future Internship Initiative is funded by Team PA Foundation and in partnership the Pennsylvania Department of Community and Economic Development.

To inform businesses of the Web site, Penny Camilla, Team Pennsylvania regional coordinator, sent out communications through NEPA Alliance. She also sent information to Chamber of Commerce offices, Industrial Development groups and the regions' news outlets.

Businesses and students have only until 15 April to register and post information on the Web site. The site can be used after this date by those registered; however, no new information can be posted.

The posting limitation will give the state a chance to test results of the initiative. "The Web site initiative will only work if both students and businesses participate," said M. R. Carter.

"To post a resume or job opportunity, visit Virtual Internship Job Fair Web site at www.collegecentral.com/stayinvent. The Team Pennsylvania Foundation is a private, non-profit organization funded by corporate foundations and non-public interest groups.

For additional information about the Stay and Invent the Future Initiative, visit www.stayinventpa.com.

Students Provide Volunteer Tax Assistance

M any local residents benefited this year from the University's Volunteer Income Tax Assistance (VITA) service. VITA is a free tax-help service for clients with low and moderate incomes who need help with their basic tax returns.

Accounting interns Jamie Ferraro '02 (left) and Susie Terrie '02 devoted their time three times a week from 11 a.m. until 3 p.m. to help with the program. There were also other volunteers from the Kania School of Management available to help clients. VITA used "Taxwise" a software program that makes accurate, computer-generated tax returns.

Financial Executive Yields Full House Audiences on Campus

Christopher M. "Kip" Condron speaks to a standing-room-only crowd at the President's Breakfast on 1 March.

Christopher M. "Kip" Condron, President and Chief Executive of AXA Financial, Inc. and a member of the AXA Group Mangement Board, was greeted by full-house audiences when he returned to the University on 1 March as an Executive-in-Residence.

A 1970 graduate of the University of Scranton, Mr. Condron began the day by speaking to 150 area business and civic leaders at the President's Breakfast.

He told the standing-room-only crowd about his six areas of focus in running one of the world's premier financial services organizations - one with approximately $483 billion in assets as of December 2000. "I am surrounded by people who do the right things all day - every day," said Mr. Condron.

He also mentioned the time-management benefits he finds from monthly business reviews of key units and the added security of a Governance Committee's involvement in large expenditures.

Mr. Condron participated in two classroom sessions, met with faculty, and interacted with students in the Business Leadership Program.

He also held a public lecture about "Integrity in the Financial Markets." The program, sponsored by the Kania School of Management's Business Leadership Program, drew a full-house crowd of students and faculty who gathered in the auditorium of Brennan Hall.

Mr. Condron reviewed consumer investment behavior from 1965 through to the present and closed with the conclusion that "the U.S. economic slowdown and equity market correction mark the end of the bull market, but should not interrupt long-term trends."

AXA Financial is the Holding Company for Equitable Life Insurance and Alliance Capital Management Co. AXA Financial, Inc., is one of the world's premier financial services organizations with approximately $483 billion in assets as of December 2000. AXA Financial is a member of the global AXA Group, a worldwide leader in financial protection and wealth management.

The Executive in Residence Program provides University of Scranton students the opportunity to meet successful business executives. The program is coordinated by the President's M etropolitan Business Council, a group of Metropolitan New York-based alumni, chaired by M. R. Condron.

Announcements

John R. Conway, Ph.D., Associate Professor of Biology, had an article titled "N'galand's unique, ancient biodiversity" featured in the February 2002 issue of Biology Digest. Dr. Conway's photographs were used on the front cover, inside cover and throughout the article.

Frank X.J. Homer, Ph.D., Professor of History and Pre-Law Program Director, has been named Conference Registrar for the next national Pre-Law Advisor Conference to be held in Boston in June of 2004. As registrar, Dr. Homer will serve as a member of the National Conferences Steering Committee. Conference Registrar of the Northeast Association of Pre-Law Advisors for many years.

Intersession Trip Announced

During the intersession of 2002-2003, Don and Pantle SJ, Associate Campus Minister, will host a trip to Germany. The trip includes stops to Switzerland, Austria and Liechtenstein, and includes extras such as the Sound of Music Tour, visiting various castles, visiting the Olympic Stadium, hiking through the Alps. The price of the trip is $1,999. For information call Fr. Pantle or Jim Miller at 941-7419. 
Grant Advances Intergenerational Service-Learning

By John Errigo '02

Public Relations Intern

M. arjorie M addox, Ed .D. , Associate Professor of Nursing, has received a grant from the Association for Gerontology in Higher Education (AGHE) to conduct an intergenerational service-learning project.

Service-learning is a good way for students to get first-hand experience in real-world settings. At the same time, students can respond to a need in the community and learn more about a chosen academic discipline.

Intergenerational service-learning is a way to work with people of different age groups. Dr. M. addox used her grant to incorporate intergenerational service-learning into an undergraduate course in community health nursing.

As part of this new initiative, Dr. M. addox designed a program called the "Drive-in Movie." The program took place during the middle of November. Young Children created a "car" and watched "The Lion King" in a simulated drive-in movie setting with senior citizens in an adult day care.

Through the interaction between seniors and young children, nursing students learned the importance of intergenerational service-learning. The showing of "The Lion King." was a powerful example of an intergenerational experience. The event, attended by 150 people, demonstrated the ways in which people from two distinctly different generations can work together. Dr. M. addox plans to follow up the event in April with an ice cream social.

Dr. M. addox's work with the AGHE grant opened the way for her to be nominated and ultimately selected as an AGHE Fellow. She is one of only six nurses to be inducted as an AGHE Fellow.

The AGHE recognizes professionals who have furthered or advanced the field of gerontology.

"I am very grateful for the opportunity to work with and implement the inter-generational service-learning project," said Dr. M. addox. "My students gained worthwhile and enriching experiences while working on this project."

Intergenerational service-learning is an important educational tool for students of the nursing program to learn more about people of different age groups. Because of the intergenerational service-learning aspect of their curriculum, the graduate and undergraduate nursing students will learn more about their elders and the positive benefits of sharing new experiences with the young and the aging.

NAMES Aids Quilt to be Displayed

The University will host the year's second-largest showing on the East Coast of the NAMES Project AIDS Quilt, 11-13 April.

The Quilt, which consists of 816 panels, will be on display in the Long Center. The exhibit is open to the public free of charge.

The AIDS Quilt was established in June of 1987 to create a memorial for those who have died of AIDS. Portions of the Quilt are constantly on display throughout the country.

Nearly 50 Chapters represent the NAMES Project AIDS Memorial Quilt across the United States. The NAMES Project AIDS Memorial Quilt forms the largest HIV/AIDS-related "grassroots" volunteer organization in the country. Many volunteers are very active in promoting the AIDS Quilt as a tool to help fight the battle against HIV.

Volunteers are needed to staff the display. The duties of the volunteers include staffing tables and greeting guests as they arrive throughout the three days of the display. Volunteers are encouraged to call the Center for Health Education and Wellness at 941-4253.

Kanias Establish Sylvester Scholarship at the University

Arthur J. and Angela Kania, long-standing and generous benefactors of The University of Scranton, have established a scholarship in honor of Robert J. and Joan J. Sylvester, Mr. and Mrs. Sylvester, Vice President Emeritus for Institutional Advancement, have retired after 18 years of service to the University.

Both Mr. Sylvester and Mr. Kania are alumni of the University, graduating in 1958 and 1953 respectively.

"In establishing this scholarship, Angela and I challenge promising young women and men to aspire to the kind of success that Mr. Sylvester achieved throughout a 42-year career dedicated to Jesuit education," said Mr. Kania.

"The Kanias and the Sylvester share a long and distinguished history with The University of Scranton," said University President Joseph M. McShane, S.J. "I am confident that the recipients of this scholarship will proudly uphold the extraordinary reputations of its benefactors and its namesake."

Robert J. and Joan J. Sylvester Scholarship grants will be given to high school graduates from Lackawanna County, with preference given to students from Valley View High School, Abington Heights High School and Scranton Preparatory School.

The scholarship is renewable as long as the students continue to meet the University’s scholarship criteria.

The Kania name is well-known on campus. In 1998, the University renamed its business school the Kania School of Management to recognize the Kania’s lifelong commitment to the university.

The Kania School of Management offers a broad spectrum of undergraduate and graduate programs, from business, accounting and management to finance, marketing and operations management. The School also offers innovative new majors in Electronic Commerce, Enterprise Management Technology and Accounting Information Systems.

Mr. Kania earned his juris doctorate from Villanova University. He is a senior partner in the Baya Cynwyl law firm of Kania, Lindner, Lask & Fenney, which specializes in corporate and real estate finance.

Additionally, he is a principal in Trikana Associates, which owns and manages various real estate holdings in Pennsylvania, New Jersey, Delaware and Florida.

Mr. Sylvester is nationally recognized for his work in institutional advancement. In 1994, he was named "Fundraiser of the Year" by the National Society of Fundraising Executives. Earlier this year, the Council for Advancement and Support of Education (CASE) District II presented Mr. Sylvester with a Lifetime Service Award for 25-plus years of service to education.

During his years at The University of Scranton, Mr. Sylvester directed three successful capital campaigns, rewarded a 400 percent increase in annual giving and led the University’s efforts to raise more than $30 million. Following his retirement, the Board of Trustees of the University bestowed on Mr. Sylvester the title of Vice President Emeritus in recognition of his years of dedicated service.

SPRING SPORTS OUTLOOK

Baseball

Head coach Bill Hovorka welcomed back 20 let-
termen from a team that hit a healthy .279 last year.

Junior outfielder Mike Astino (Lincroft, N.J., Christian Brothers Academy) led the Royals in hitting with a .375 average. Junior shortstop Les Carter (Moscow/ North Pocono) was next at .316, followed by senior pitcher/out-
ter Pat Reed (Morristown N.J., Seton Hall Prep) at .314. Reed, along with his brother, Bryan Reed (Morristown N.J., Seton Hall Prep), senior Curt Camoni (Jesup/Valley View) and sophomore Mike Udhawan (Rutherford, N.J., St. Joseph's Prep), will be the keys to a pitching staff that was hurt by inconsistent play on the defensive end. Udhawan led the Royals in earned run average, while Pat Reed was the team leader in innings pitched, strikeouts and complete games.

Also expected to make an impact during the upcoming season are returning starters Pat Drogos (H.ooken, N.J., St. Peter's Prep), a power-hitting first baseman who batted .380, and Bobby Davis (Hackettstown, N.J., Holyoke Catholic), who started 19 games at third base and hit .259.

Curt Camoni

Curt Camoni led the Royals in hitting with a .375 average. Junior shortstop Les Carter (Moscow/ North Pocono) was next at .316, followed by senior pitcher/out-
ter Pat Reed (Morristown N.J., Seton Hall Prep) at .314. Reed, along with his brother, Bryan Reed (Morristown N.J., Seton Hall Prep), senior Curt Camoni (Jesup/Valley View) and sophomore Mike Udhawan (Rutherford, N.J., St. Joseph's Prep), will be the keys to a pitching staff that was hurt by inconsistent play on the defensive end. Udhawan led the Royals in earned run average, while Pat Reed was the team leader in innings pitched, strikeouts and complete games.

Also expected to make an impact during the upcoming season are returning starters Pat Drogos (H.ooken, N.J., St. Peter's Prep), a power-hitting first baseman who batted .380, and Bobby Davis (Hackettstown, N.J., Holyoke Catholic), who started 19 games at third base and hit .259.

Golf

Coach Ed Karpovich's golf team finished the 2001 season with a 3-3 record in dual-
meet competition and placed ninth in the 14-team field at the Middletown Atlantic Conference championships.

Bob Scott (Olyphant/Bishop Hannon) led the Royals with an 81.0 strokes per round average. He capped off the season by finishing tied for eighth-place at the MAC championships. He also had two sub-80 rounds, including a season-low 75 in a tri-meet with King's and Moravian.

Admissions Events Slated

The University will host three events for accepted and prospective students during April. On Saturday, 6 April, the University will welcome over 500 accepted applicants during Freshman Preview Day. The event will be held from noon until 3:30 p.m. It gives college-bound students and their families the opportunity to visit campus facilities and talk to students, faculty and staff about the University's academic programs, support services, financial aid, and extracurricular activities before making their final enrollment decision.

"Freshman Preview Day provides an opportunity for accepted students and their parents to get a look at the many ways in which the University prepares students for the real world," said Joseph Roback, Director of Admissions. Registration opens at 10 a.m. in the Long Center and will continue until noon. During this time, the University will offer a brunch in the Gunster Student Center.

On Saturday, 27 April, the University will present a second event for high school juniors. This event gives high school juniors an introduction to the University's premedical, pre-law and academic development programs as well as the University's residence halls. An Open House for High School Juniors will be held Saturday, 27 April. This event includes a high school junior's premedical, pre-law and academic development programs as well as the opportunity to stay on campus with a student host in one of the University's residence halls. For more information, call (570) 941-7540 or 1-888-SCRANTON.

At noon, attendees will gather in the Long Center for presentations by the University's Preprofessional Advisement, O'Hara Hall, and will continue through to 3:30 p.m. This third "Royal Night" session of the year will be held on 4-5 April. Royal Nights provides prospective students an opportunity to stay on campus with a student host in one of the University's residence halls.

For more information, call (570) 941-7540 or 1-888-SCRANTON.

Bookstore Donates to Campaign

Donald Drasba, left, manager of the University Bookstore, presents a $10,000 check from Follett Higher Education Group to the University for the Campaign for Scranton. Accepting on behalf of the University are Paul J. Strunk, Vice President for Institutional Advancement, and Margaret McNulty, Director of Corporate and Foundation Relations.

Scranntan Students Listed in Who's Who

The 2002 edition of Who's Who Among Students in American Universities and Colleges will include the names of 63 undergraduate and 22 graduate students from The University of Scranton who have been selected as national outstanding leaders. Campus nominating committees and editors of the annual directory selected students based on their academic achievement, service to the community, leadership in extracurricular activities and potential for continued success.

The annual directory, which began in 1934, includes students from more than 2,300 institutions of higher learning in the United States and other nations.
