

3. Create course navigation structure by creating modules/sub modules for each unit, week or lesson. This concept is the same as the Lessons Tab in ANGEL and necessary for students to find course content. E.g The course navigation structure can be organized into 16 weeks, 10 lessons/units or 24 chapters. Use the most logical structure for your teaching needs (the picture below is using “Weeks”).
 - A. Navigate to Content
 - B. On the Table of Contents page, enter your new module title in the Add a module... field, which is below the Table of Contents title and any existing modules.
 - C. Press Enter.
 - D. Repeat as needed for all modules and submodules.
