
Did you know?

More than 2500 requests for tutors were made last year with approximately 2/3 of the requests coming from students with a GPA above 3.00.

More than 200 students are employed as tutors every semester.

Success begins with good study skills. You can learn more about such essential skills as time management, goal-setting, note-taking and organization by reviewing the online tutorials on our website.

TUTORING SERVICES

Tutoring is an integral part of the CTLE because it provides an environment for students to become self-regulated learners.

A JESUIT UNIVERSITY

TUTORING SERVICES

What is tutoring & what types are available through the CTLE?

Tutoring provides small group or, in some cases, individual one-on-one tutoring sessions for students to become *self-regulated learners*. The tutors direct all tutoring activity towards creating an environment that encourages and supports student learning and development. There are three types of tutoring available:

- Small group
- Supplemental Instruction (SI)
- Drop-in tutoring labs.

How does group tutoring work?

Students may request tutoring in a particular course by accessing an online request form on My.Scranton. Students consistently meet with a tutor in a small group on a **weekly** basis for the **entire** semester.

What is SI?

Supplemental Instruction (SI) is a form of academic support where an experienced tutor leads regularly-scheduled group study sessions for specific courses. The goal of SI is for students to actively involve themselves with the course content and develop effective study skills—learn *how to study* as well as *what to study*.

What about drop-in tutoring?

The Drop-In Tutoring Labs offer immediate tutoring assistance without the need of an appointment. Tutors are available on particular days and times to assist students in a variety of courses. Visit the CTLE website for times and locations.

How can I access tutoring services?

You can complete the online tutoring request form on through

my.scranton.edu → Self Service → Student Services & Financial Aid → CTLE Menu

Please contact Mary Ellen Pichiarello or Tom Leong in the CTLE (LSC 5th floor) if you need additional assistance.
