

## **Statement of Mission**

The Department of Occupational Therapy at The University of Scranton aspires to prepare occupational therapists skilled in providing humanistic, holistic and evidence-based services to a diversity of individuals, communities and populations. Consistent with the Catholic and Jesuit traditions of The University of Scranton, future occupational therapists are educated in the liberal arts and are encouraged to practice their profession guided by intellectual, moral, and ethical values embedded in a framework of social justice. Life-long learning and the ongoing pursuit of knowledge and wisdom are facilitated through active mentorship, guided reflection and contemplation in action.
