

Undergraduate Student Funding Opportunity

ORSP is pleased to announce the availability of funding to promote **high-quality faculty-mentored experiences in research and scholarship** for our undergraduate students. Proposals are expected to support new or ongoing faculty-student research projects that focus on the creation of an undergraduate research/scholarship experience for the student resulting in student learning outcomes, such as inquiry and analysis, critical and creative thinking, and foundations and skills for lifelong learning.

To this end, the proposal submitted should be a collaborative effort between the student and the faculty member, **with the student providing a project description**, and the faculty member providing specific information about potential learning outcomes.
