2	Undergraduate	Biology/Chemistry/Environ Science	access	It is very difficult to access electronic journals from off campus.
3	Undergraduate	Counseling/HS/HAHR	access	Oh, and when you are attempting to access the online databases off campus, it can sometimes be a pain.(also had comment on hours)
4	Graduate	Education	access	I have always had a good experience at Weinberg Library. This past weekend Feb 23-25, there was no way to access electronic reserves I needed due to the network problems.
5	Graduate	Physics/EE/Computing Science/Math	access	More access to online articles campus wide.
6	Faculty	Biology/Chemistry/Environ Science	collection	I think you do an outstanding job. My only quibble is the lack of journals and \$\$ available to purchase books.
7	Faculty	History/Political Science	collection	The departmental library budgets should support the academic programs and their faculty. For far too long they have not. Someone needs to cry "halt" on technology for a couple of years to allow the library some breathing space.
8	Graduate	School of Management	collection	The number of electronic articles and journals in the library is to some extent limited. Course related text books should also be kept in the library.(also commented on group study/noise)
9	Graduate	Nursing/OT/PT	collection	I am a nurse anesthesia student and find that U of Scranton does not have any anesthesia related information. I must use ebscohost via wilkes-barre general for journals. It would have been extremely helpful to have someone come down to our classrooms and help us search with ebscohost. I really have no need to go into the U of Scranton library.
10	Graduate	Education	collection	There can be more full text articles to be read via the library web page.
11	Undergraduate	Psychology	collection	you need more resources for psychology and neuroscience
12	Faculty	English/Foreign Languages	collection	There's very little material available in the field of linguistics and second language acquisition
13	Undergraduate	History/Political Science	collection-books	More history and political science related books are a must. PALCI is great, but I have to often resort to it when the library lacks books in my field that are often necessary for my studies.
14	Graduate	Counseling/HS/HAHR	collection-books	The library should have at least 1 required textbook for each class.
15	Graduate	Philosophy/Theology/RS	collection-books	My specialty is patristic studies in the master's theology program. I would like to see more current books and commentaries analyzing the individual works of patristic theologians, e.g. Basil the Great and John Chrysostom.
16	Undergraduate	Biology/Chemistry/Environ Science	collection-journals	I am very satisfied - I just wish there were more journal selections.
17	Undergraduate	Nursing/OT/PT	collection-journals	more maternity and neonatal health journals

	A	B	C	D
1	User Group	Discipline	Category	Comment
18	Undergraduate	Nursing/OT/PT	collection-journals	More periodicals are needed in OT, like OT Practice and OT Advance
19	Undergraduate	Biology/Chemistry/Environ Science	collection-journals	I find it frustrating when I can only obtain the abstract of a really good article online through the library database.
20	Undergraduate	Biology/Chemistry/Environ Science	food	I think it would be a good idea to have a snack bar or something in the library--to promote healthy snacking instead vending machine junk food.
21	Graduate	Education	group study	The environment is comfortable. Sometimes there is not enough study rooms.
22	Undergraduate	Nursing/OT/PT	group study	The library has some group study rooms, but many are not available all the time.
23	Undergraduate	History/Political Science	group study	There needs to be more study space for finals.
24	Undergraduate	School of Management	group study	It would be nice if the library had more study rooms for those people who absolutely need to discuss their work. People talking in the library is so distracting and negates the whole point of the library as a study place.
25	Undergraduate	Philosophy/Theology/RS	group study	The group study rooms are often full of one or two individuals making it often difficult for a group to utilize these facilities.
26	Undergraduate	Biology/Chemistry/Environ Science	group study	I think the library should be expanded and have more quiet room options because they all fill up almost every day.
27	Undergraduate	Nursing/OT/PT	group study	There are not enough study rooms for group studying!!!
28	Undergraduate	Biology/Chemistry/Environ Science	group study	I think if it were at all possible to have some more study rooms.
29	Undergraduate	Biology/Chemistry/Environ Science	group study	The librarians are very helpful and I can almost always find a quiet place to study, but group study areas are always limited
30	Undergraduate	History/Political Science	group study	More group study rooms, however, when creating spaces where people are going to be speaking perhaps the walls should be sound proof because it is distracting to hear others talk while you are trying to study. Copy machines in (comment ended here)
31	Faculty	History/Political Science	group study	Excellent services as always. My one (big) regret is that there are no individual study rooms for individual faculty. If I had one, I would run over there in between classes to get grading and research done.
32	Undergraduate	Biology/Chemistry/Environ Science	group study	I wish that there were more community group study rooms available in the library for group studying. I enjoy the fourth floor quiet study room and go there for a place to study away from noise very often
33	Undergraduate	Communications / Journalism	group study	more restrictions should be placed on group study rooms. During finals week people like to reserve a study room when the library opens and stay there all day. This would not be a problem if these people were studying, but it seems there are more rooms empty with belongings in it than there are with people using them.
34	Undergraduate	Biology/Chemistry/Environ Science	group study	Could possibly use more group study rooms. Most of these rooms are frequently occupied.

1	User Group	Discipline	Category	Comment
35	Undergraduate	Communications / Journalism	group study	I am concerned about the need for more quiet spaces as well as the need for more community space for group learning and group study. (also commented on hours)
36	Undergraduate	Biology/Chemistry/Environ Science	hours	It would also be nice if the library stayed open for 24 hours during Dead Week (week before finals) and Finals Week. The library is here for us, and most would agree that it is a good idea to keep it open 24 hours during such time periods (also commented on access)
37	Undergraduate	Counseling/HS/HAHR	hours	I have no problems with the library, other than that sometimes it seems that it closes too early. Extended hours, especially during midterms and finals, would be nice.
38	Undergraduate	School of Management	hours	i think they should have tables open late at night because i hate the prodeo room. I cant do work in the cubbies.
39	Undergraduate	Communications / Journalism	hours	I feel that the library hours should be changed. The library closes too early during the week and should definetly be open 24 hours during finals. I feel that the library should close at 2 during the week because this would better provide students who are studying on the 2-5 floors enough room to do so. The pro deo room is not sufficient in providing adequate study space. I suggest that public safety should patrol the library when the librarians leave for the night.
40	Undergraduate	Communications / Journalism	hours	(Commneted on group study as well) However, I am most concerned about the hours at the library. I would like to see the whole library open until midnight or later.
41	Undergraduate	Biology/Chemistry/Environ Science	information literacy	It is very hard to find full text journal articals or periodicals using the electronic sources of the Wienberg memorial library.
42	Graduate	Nursing/OT/PT	information literacy	Journal articles are also somewhat hard to find online (also had comment about group study rooms).
43	Faculty	Nursing/OT/PT	information literacy	The orientation to the library and resources is very helpful and presented in a user freindly fashion.
44	Graduate	Philosophy/Theology/RS	information literacy	Some of the databases I have tried to use (e.g. Proquest and LexisNexis) are confusing -- as much to the librarians as to me. This has slowed considerably my efforts to conduct academic research. I think those web sites are poorly constructed.
45	Undergraduate	Counseling/HS/HAHR	information literacy	The library seems to be moving in the right direction. Everytime I use the system it gets easier and easier
46	Graduate	Nursing/OT/PT	information literacy	The library should make it easier for students to find materials related to their majors through better advertisement and placement of online journals.

47	Faculty	Nursing/OT/PT	information literacy	When persuing my undergraduate and graduate degrees as an on campus user of the library resources, I was extremely pleased. Now, the majority of my coursework is done distanced-based, and, as I persue a clinical doctorate, I am required to use other outside reasources to gain current references in relation to the material discussed in class. However, I am still learning the electronic database, and feel that as I become more comfortable with the system, I will better utilize the Weinberg resources.
48	Undergraduate	Nursing/OT/PT	information literacy	The human resources/services and facilities are excellent. My problems are primarily related to retrieving articles from electronic journals. There are often many steps necessitating having several windows open and the availability information is sometimes unreliable. Thank you.
49	Faculty	Biology/Chemistry/Environ Science	negative	during finals the library gets too packed and hot
50	Undergraduate	Education	negative	THIS LIBRARY IS TOO LIMITED.
51	Faculty	Philosophy/Theology/RS	negative	When I returned a book via the after hours "drop off-box" the library system sent me several emails requesting I still did not return the book. I replied to the messege each time and was ignored. My late fee rose to 70 dollars and I had to contact the library in person to have the affair resolved. I felt this was a great inconvienece.
52	Graduate	Philosophy/Theology/RS	negative	too obsessed with technology; otherwise great service
53	Undergraduate	School of Management	negative	they are just satisfactory
54	Undergraduate	English/Foreign Languages	noise	I am frequently annoyed by the level of noise (and rudeness) in the library. Last week a student was dozing on a couch with his ipod blasting while students were trying to study. Other times it's students just using the library to visit, and other times it's cell phone conversations, although I have to admit that this year I've noticed less of that. I dread having to go to the library and resent so many materials being "library use only" when I would have a quieter and more comfortable place to use them elsewhere.
55	Undergraduate	School of Management	noise	I'm at the library a great deal during the semester preparing for important exams. It's usually quiet during these times of the year. However, when finals roll around, I don't appreciate the loud noise that comes with them. I should not have to move my study position because of other people having conversations which are totally irrelavant to their studies. Some sort of action should be taken to prevent this from occuring further. I am usually found on the 3rd floor, somewhere where I would think there would be quiet and peace of mind. This is not the case though, as I find myself getting even more stressed when I hear people talking. The group tables should be moved elsewhere and in the back study rooms people should not be talking loud enough for me to hear them- that is quite absurd. Thank you for your time and I hope that you consider my problem at hand.

56	Undergraduate	School of Management	noise	Somehow try to enforce no talking on upper floors. people tlak like there at the mall up there.
57	Graduate	School of Management	noise	It would be nice if the library had more study rooms for those people who absolutely need to discuss their work. People talking in the library is so distracting and negates the whole point of the library as a study place.
58	Undergraduate	School of Management	noise	Groups studying outside the Group Study Room should be instructed to stay as quiet as possible. Unfortunately they don't - especially on the second floor.
59	Undergraduate	Philosophy/Theology/RS	noise	I don't normally work in the library because other students are normally very rude and create too much noise for me to concentrate. The quiet study rooms are nice but they are almost never available, especially when I need one for a group project. It is simply easier for me to take out the books I need and work at home.
60	Undergraduate	Biology/Chemistry/Environ Science	noise	The workers on the second floor of the library are disruptive to study habits sometimes. I understand that they need to answer questions, that is their job, but should they not do so in a reasonable tone of voice? Also they come out of their offices only to laugh and talk loudly among each other. Finally, I wish that there was more enforcement of quiet in the library, yes not talking on cell phones is a good idea but someone wispering on a phone is less disruptive than a table of people laughing about last weekend's drunken adventures.
61	Undergraduate	Biology/Chemistry/Environ Science	noise	Please do something about people on their cell phones. It is annoying those who are studying.
62	Undergraduate	School of Management	noise	During finals week it can get noisy. More staff members should walk around and keep people silent
63	Undergraduate	School of Management	positive	always had great help at the library
64	Undergraduate	Nursing/OT/PT	positive	The library offers great services for accessing information and acquiring texts which are not available on campus.
65	Undergraduate	Undecided	positive	I love the library
66	Undergraduate	School of Management	positive	I enjoy working from the library and the resources available are very helpful.
67	Graduate	Nursing/OT/PT	positive	I really am at the library every single day and it's definitely where I am most efficient
68	Undergraduate	Philosophy/Theology/RS	positive	I find libraries easier to use now that I have returned for a 2nd Master's degree. I like JAVA City, and the cozy study areas. I personally retire the the 5th floor, as that is where my section is, and study there. The sunlight coming through the large ceiling to floor windows on the first floor are too much for me neurologically.
69	Faculty	Counseling/HS/HAHR	positive	Like the fact that you can purchase a used book in the library.
70	Undergraduate	English/Foreign Languages	positive	I'm very impressed by library services--always beyond what I expect. And the people are fantastic, always so patient with requests. The interlibrary loan service has been of enormous help in my research.
71	Undergraduate	Education	positive	I love the library.

72	Undergraduate	School of Management	positive	The library was one of the very first things that caught my attention at this school. It is a great facility and is something I tell others when they look at this school.
73	Undergraduate	School of Management	positive	The Library has met or exceeded all my expectations. There is a diverse amount of information contained there, with both academic and personal interests represented.
74	Undergraduate	History/Political Science	positive	I have always been pleased with the library services, as well as the set up of the library. I only ever once had trouble finding something, a microfiche of a relatively obscure text, but the library staff was quite helpful.
75	Graduate	Biology/Chemistry/Environ Science	positive	The library is amazing, always has the information I need and the people working there are always willing to help me find what I need if I can not manage on my own. Best study atmosphere ever!
76	Undergraduate	School of Management	positive	The library is great here at the University. I have no complaints at all.
77	Undergraduate	Biology/Chemistry/Environ Science	positive	the library has good information which is usually easy to find, and there is always help available.
78	Graduate	Education	positive	The library is great!
79	Undergraduate	Nursing/OT/PT	positive	I feel the library provides the necessary materials for me to complete research projects as well as obtain information for my master's thesis. I also have noted that the staff is very efficient in answering questions i have concerning the materials provided in the library.
80	Graduate	Nursing/OT/PT	positive	I think the library meets all my needs as a student
81	Undergraduate	Education	positive	I find that the Library is an excellent resource and is capable of supporting doctoral research adn graduate study.
82	Undergraduate	Education	positive	The overall quality and service of the library has definitely met my needs and expectations during the past three and a half years.
83	Undergraduate	Communications / Journalism	positive	The Library is a comfortalbe place, I like it. I like the certain amount of free prints!
84	Graduate	Education	positive	The library is a great place to study and gather information.
85	Undergraduate	Counseling/HS/HAHR	positive	I have never actually visited the library in person. All of my access has been electronic. Therefore, I have no information or opinion about the atmosphere or physical comforts of the library. I have had no difficulties with remote access to library resources.
86	Undergraduate	School of Management	positive	the library has helped me stay on top of my school work
87	Undergraduate	Biology/Chemistry/Environ Science	positive	The Weinberg Memorial Library is very useful.
88	Undergraduate	Communications / Journalism	positive	Nothing really, I'm satisfied.
89	Undergraduate	Biology/Chemistry/Environ Science	positive	good survey
90	Undergraduate	Counseling/HS/HAHR	positive	The UofS library is an awesome place to get work done! It has a great set of employees that help all the students!
91	Undergraduate	School of Management	positive	This survey used language that made it difficult to decipher what exactly it was asking. Otherwise, library is doing a good job.

92	Faculty	Physics/EE/Computing Science/Math	positive	prior to my recent enrollment as a non-trad student, I made use of the library as a LCLS user. The library is fantastic (and I can be picky about libraries -- my father was a college librarian!).
93	Undergraduate	Physics/EE/Computing Science/Math	positive	To quote Tony the Tiger, THEY'RE GREAAAAAT!
94	Undergraduate	Nursing/OT/PT	positive	I believe the library is a good source of information and technology that I do not take full advantage of. I also believe that the library is a good source of quiet space, and I get a lot of work done when I am in there.
95	Graduate	School of Management	positive	I really like going to the library. Its a great/comfortable place to focus on my school work. I like that there are places I can study individually as well as with a group of people. (Java city is my hero)
96	Graduate	School of Management	positive	I am quite satisfied with the way I am treated at the library. The prodeo room and group study rooms at 4th floor are best.
97	Undergraduate	Undecided	positive	great service
98	Undergraduate	Undecided	positive	the library has been very helpful this year
99	Undergraduate	History/Political Science	positive	THE LIBRARY RULES
100	Undergraduate	Physics/EE/Computing Science/Math	positive	great service and knowlegdable librarians
101	Undergraduate	History/Political Science	printers	Also there needs to be more printers available to students.(also had comment about study space) Otherwise, everyone is friendly and always willing to help.
102	Undergraduate	School of Management	printers	I've never once had a problem with any aspect of the library. We should be able to print more pages! (For free from our RoyalCard)
103	Undergraduate	English/Foreign Languages	printers; computers	The second floor printers are out of order too often. There are several computers (the white ones) which are to slow to bother using and should be replaced.
104	Undergraduate	History/Political Science	staff	Thank you for all that you do. One suggestion: the Library Circulation desk staff, especially on the weekend, are there to help students - not frustrate them.
105	Graduate	School of Management	staff	The staff is extremely kind and helpful
106	Graduate	Counseling/HS/HAHR	staff	The librarians have always been very helpful and willing to help me.
107	Undergraduate	Nursing/OT/PT	staff	My major did not require me to use the library sources much, but I used it as a place to study. When I did need to use resources, the staff was always willing to help.
108	Undergraduate	Biology/Chemistry/Environ Science	staff	In general, the older employees at the library are more educated on the resources than the students who work there. Often the students seem very unfamiliar with the resources, and are usually unable to answer questions.
109	Undergraduate	Education	staff	The library staff is very helpful and friendly.
110	Faculty	English/Foreign Languages	staff	If I ever have a question that needs answering, I'm always given the help I need whether it's students or adults; the library staff is incredibly helpful and always willing.
111	Undergraduate	English/Foreign Languages	staff	The library staff and faculty members are always helpful.

	A	B	C	D
1	User Group	Discipline	Category	Comment
112	Undergraduate	Biology/Chemistry/Environ Science	staff	The staff is very helpful with needed assistance. (also had comment on group study)
113	Undergraduate	Biology/Chemistry/Environ Science	staff	The people here are great and so friendly
114	Undergraduate	Nursing/OT/PT	staff	I think the employees are fine
115	Undergraduate	Biology/Chemistry/Environ Science	staff	I would be lost without the library and the people here who help us.
116	Graduate	School of Management	staff	the librarians are very nice and helpful
117	Undergraduate	School of Management	staff	I often use the library. People working there are very polite and nice so library is one of my favorite places to go. I hope library will be like this from now on. Thanks!
118	Undergraduate	Biology/Chemistry/Environ Science	staff	If there were also more staff walking around asking people if they need help.(also had commnet about group study
119	Faculty	English/Foreign Languages	staff	Please work on your binder of books that have been stolen. I was searching for a book for three days, always being sent to the pre-shelving shelf if it wasn't in circulation, but it turned out to be stolen instead.
120	Undergraduate	English/Foreign Languages	staff	The library staff is first rate. I have never been anything less than fully satisfied with the friendly and efficient help that I have received whenever requested.
121	Undergraduate	School of Management	staff	Great help from MOST, librarians
122		History/Political Science	staff	They are very helpful at finding articles.
