<b>Percentage of self-assessed information literacy sessions that included an academic integrity component.</b>	34%	22%	17%	n/a

**Assessment:**

Prior to the 2010-2011 academic year, a form was created in the Library's Survey Monkey account that enabled librarians to self-report collaboration, student learning objectives, and a short assessment of the information literacy session. In the 2011-2012 academic year, a question about academic integrity was added to the form.
