Welcome Back, Kotter or '86er's

What does the number 25 mean to you?

One can only imagine the number of accomplishments, challenges and changes that occurred in the past 25 years in our personal and professional lives. Upon reflection, 25 could be a great number for a myriad of reasons. Some may think 25 means silver anniversary, others may think 25 is halfway to 50 or 25 could be the number of times one walked the streets of the U in a day.

What does 25 have in common with the '86er's? It could be the number of times one said hello to fellow classmates in a single day or the number of times you enjoyed the company of a fellow graduate post '86 or the number of classes one had to take to earn a stellar education at the U.

We will shortly be embarking on the 25th anniversary of graduation and we find ourselves yearning to connect with old friends, seeing friends we have stayed in contact with or get to know what greatness has happened to so many fellow '86er's.

The U has had a multitude of changes during the two and one half decades we have been off the grounds embarking on our lives. Come see how the school has transformed itself. You will truly be amazed.

We are writing to urge you to attend OUR 25th anniversary from The University of Scranton. To make this a successful, fun experience, we need you to encourage your classmates and friends to attend. The more of us that are there, the more we can enjoy our memories and share experiences.

See you in Scranton in June!
