

14. URAM Newsletter, 1972- irregular, ISBN 0315-3002

To inform membership about the yearly progress of URAM Research and keep friendly relations between members and all interested women and men in the objectives of URAM Research the President of the International Society edits and publishes the URAM Newsletter responding to special needs. Members are invited to share their news, impressions and recommendations with the President, who according to his or her view shares those observations with the interested readers of URAM Newsletter.

The beginning of URAM Newsletter takes us back to the time prior to the publication of the URAM journal. Its objective was then the preparation of launching the journal.
