

Dear Members of the University Community,

The University will continue to send regular updates once per week, typically on Mondays, regarding Royals Back Together. Other notices will be sent by our President, members of Cabinet or members of the University community when necessary.

The most up-to-date information will continue to be posted at [Royals Back Together webpage](#). The webpage also includes icons near the top of the page (like those in the letterhead) which indicate if masks are required indoors on campus as well as access to campus for the general public.

Currently [masks are required indoors](#) regardless of vaccination status. The campus is only open to members of the University community and invited guests. The requirements will remain in place through to **September 13, at which time the University will update the campus to any changes in the Weekly Update.**

Report of Active Cases of SARS-CoV-2 on Campus

The University will report positive cases of the SARS-CoV-2 virus on campus. For the fall semester, unvaccinated University community members, who were granted a waiver due to medical or religious reason, must participate in weekly surveillance testing. Vaccinated individuals who have been identified through contact tracing as being exposed to someone who tested positive, would also be tested three to five days after exposure. Data for students and employees will be reported each week.

Campus Metrics Summary for August 30 to September 5:

- One student tested positive through surveillance testing, one student reported symptoms and tested positive on campus, and one student tested positive in the quarantine testing protocol. All students testing

positive are in isolation. University contact tracers identified and notified individuals of possible exposure and the protocols for testing and, if necessary, quarantine.

- No employees tested positive through the University surveillance tests or through Non-University testing. One employee is in isolation due to reported symptoms.

Students in isolation: 3

Students in quarantine: 0

Students meeting criteria to discontinue quarantine or isolation: 0

Reported Positive Employee Cases: 0
